

Hosting International Students

Thank you very much for your interest in hosting international students on behalf of Crown Guardians.

Crown Guardians are appointed by overseas families to represent their sons and daughters who are in full time education in UK boarding schools. Our students are not just passing through for the summer or part of a large group of students visiting the UK as educational tourists. Unlike students who visit the UK for a few weeks or are part of large groups, our students are being educated in some of England's finest schools and come from privileged backgrounds from every corner of the world. We need safe and reliable host families which they can get to know and will return to stay between 3 and 8 times each year, in some cases for many years. It is essential that the students are well cared for, well fed, respected and treated like a member of the family. In return it is expected that the student will be polite, respectful and accountable during his/her time with you. For those families that can provide a high level of supervision and care and can offer quality accommodation, the rewards are high, both socially and financially.

The ideal homestay is one in which each party learns from the other. We hope the experiences that result will have a positive impact on you, your family and the student. Everyone involved will learn and understand a little more about the world we live in and the countries and cultures which seem so far apart.

Part of Crown Guardians role is to find host families that are interested in looking after students during the school half term breaks and occasional (exeat) weekends. The information on the following pages serves as a reminder of the important issues to consider. We ask that you read the information carefully before signing the host family agreement form. Please contact us if you have any questions or concerns. We are always looking for host families all over the UK so if you have any friends or relatives that may be interested, please pass on our details or let us know and we can give them a call.

Thank you again for your interest. Your participation will be greatly appreciated.

To submit your application to Crown Guardians:

Please sign/complete pages 5, 6, 7, 8, 9 and 10 and return them to us:

A Guide for Homestay Families

To host an overseas student in your home often means some minor changes and adjustments to your lifestyle - as well as the student's. The student will be working hard to adjust to their new school and environment and we ask that the host family be as supportive as possible. The student should, in return, try to adjust to the lifestyle of their host family.

The following information in addition to the guidelines on pages 3 and 4 should help to avoid problems created by misunderstandings. Discuss this information with the student at the beginning of their stay - Please don't wait until problems develop.

MEALS

Breakfast, lunch and the evening meal are to be provided for the student each day he / she is with you. Breakfast might consist of cereal, fruit juice, toast, tea or coffee. If it is the practice for the family to get their own breakfast, this should be explained to the student. The student should be advised that it is the practice for the family to eat the evening meal together.

The student should be asked to be punctual at meal time and to always contact the family if they expect to be late or miss a meal. Indicate to the student if they may "help themselves" to food and drinks at any time or not. Ask the student if there are any foods he/she does not eat - sometimes there could be religious or medical restrictions.

BEDROOM

The student should be provided with a comfortable bed, wardrobe, drawers and a study desk or table with a lamp and a chair. The student's privacy should be respected by all members of the host family and the student should reciprocate. The student should keep the bedroom clean and tidy.

DAILY LIFE

A student's command of English may at first be limited and initially they may not communicate with you very much. Imagine yourself in the students' situation! "Please" and "Thank you" are often words not used in some languages and cultures. Please encourage your guest to learn good manners and please don't take offence if they appear to be rude. Our language, culture and manners are unique and must be learnt.

The student is not living in your home as a hotel guest and so therefore can reasonably be encouraged to assist with home duties such as clearing the table, washing or drying up. Explain any restrictions clearly to the student; when they should shower or bathe and ask them to keep the bathroom clean after use.

24 HOUR SUPPORT

Crown Guardians is available to offer assistance and support, where necessary, for both the host family and the student at all times.

The guardian's role is to help the student in their personal as well as academic counselling. If you feel the student is having any problems, please contact Crown Guardians straight away and we will do all we can to help and assist whenever necessary.

These checks consist of two parts. The first requirement is for the applicant to provide two references (one professional and one personal), which can be completed by a close friend, neighbour, employer or professional who will support your application as a suitable host family. that is able to provide suitable accommodation and supervision to an overseas student. Please provide the full contact details for your referees in the Registration Form and we will contact them directly. Please explain to your referees that we will be contacting them and their cooperation is much appreciated. The second part will involve a visit to you and your family at your address before agreeing to place any students.
